SUMMARY

Frontend-focused Full-Stack Engineer with 6+ years building enterprise React, Redux, and TypeScript applications. Experienced with REST APIs, Node.js, CI/CD, and AI-assisted development (Claude, GitHub Copilot). Canadian PR, no sponsorship needed.

TECHNICAL SKILLS

Web Development: HTML5, CSS3, SCSS, JavaScript, ES6+, TypeScript, Tailwind CSS, Java, Vite, NPM

Technologies/Frameworks: React, React Hooks, Next.js, Redux Toolkit (RTK), Jest, Unit Testing, Node.js, Express.js, REST APIs, PostgreSQL, SQL, Selenium, BIRT, Agile/Scrum

DevOps & API Tools: Git, GitHub, Bitbucket, Webpack, ESLint, Jenkins, CI/CD, Jira, Docker, Postman, Splunk

AI-Assisted Development: Claude (Anthropic), GitHub Copilot, Amazon Q

EXPERIENCE

ADP | Vancouver, Canada (Remote)

July 2025 – Present

Full-Stack Developer

- Built complex tax and compliance management UIs using React, Redux, and TypeScript for large-scale enterprise clients — including multi-entity account setup, tax jurisdiction configuration, and remittance workflows with province-specific validations and business rules.
- Implemented Workers' Compensation employer classification across multiple Canadian jurisdictions — including class codes, premium rates, and jurisdiction-specific automated processing.
- Adapted enterprise reporting templates (BIRT) for new Canadian markets by adding Canada-specific fields, rule-based UI modifications, and report generation logic.
- Adopted ADP's AI-powered SDLC pipeline (GitHub Copilot, Amazon Q), automating story analysis, code generation, and PR creation from Jira tickets through QA verification, meaningfully compressing feature delivery cycle time.
- Won 'Most Impactful Product Feature' award for building an end-to-end GenAI pipeline (Amazon Q, MCP servers) that compressed a recurring multi-week delivery process to under 2 hours — eliminating developer handoff entirely.

ADP | Pune, India (Hybrid)

March 2022 – August 2024

Senior Frontend Engineer

- Built a Benefits module LLM chatbot delivering personalized responses to HR inquiries, reducing support workload by 30%.
- Integrated Gen AI models into the Plan Setup page, cutting plan submission time by 40% via real-time suggestions during creation.
- Rebuilt Person Setup for Time UI from Figma using React, Redux, & Tailwind CSS, cutting errors and processing time by 20%.
- Overhauled the Launchpad application UI by implementing a custom WCAG-accessible design system in React, Redux, and TypeScript, driving performance optimization.
- Initiated automated daily regression testing and unit testing using Java and Selenium, integrating with CI/CD pipelines to reduce testing time by 30% and improve code quality through early defect detection.

ADP | Parsippany, New Jersey (Hybrid)

July 2020 – February 2022

Frontend Engineer

- Architected a data extraction and auto-population solution for Benefits documents with custom insights and a PDF viewer for highlighting source data, reducing plan creation time by 40% for implementation consultants.
- Mentored a 3-person team using React, Redux, and TypeScript to digitize Plan Summary pages, cutting creation time by 50%.
- Engineered a React and Redux PDF annotation tool for 20 consultants, streamlining data extraction from 1,600+ insurance documents and improving ML model training accuracy to 93%.

ADP | Parsippany, New Jersey (Hybrid)

January 2020 – June 2020

Frontend Engineer

- Created accessible, responsive React components with cross-browser compatibility for Benefits pages, enabling implementation consultants to craft insurance plans for smaller businesses.
- Gained full SDLC exposure across requirements, design, development, testing, and maintenance within an Agile framework.

EDUCATION

University of Florida

Master's Degree in Computer Engineering
August 2016 – December 2018

University of Mumbai

Bachelor's Degree in Electronics Engineering
August 2012 – May 2016

PROJECTS

Promptopia | TypeScript, React, Redux, Next.js, Tailwind CSS

Built a server-side Next.js app enabling users to explore and share AI prompts within a global community.

AWARDS & CERTIFICATIONS

Most Impactful Product Feature

ADP | March 2026

Innovation and Impact Program

ADP | October 2022

Academic Achievement Award

University of Florida | 2016
