

UNMEY MAHADDALKAR

1007 – 5883 Barker Ave, Burnaby BC | (604) 977-2902 | unmey08@gmail.com | umahaddalkar.com | [LinkedIn](#) | [GitHub](#)

TECHNICAL SKILLS

Web Development: HTML5, CSS3, SCSS, JavaScript, ES6+, TypeScript, Tailwind CSS, Java, Vite, NPM
Technologies/Frameworks: React, React Hooks, Next.js, Redux Toolkit (RTK), Jest, Unit Testing, Node.js, Express.js, REST APIs, PostgreSQL, SQL, Selenium, BIRT, Agile/Scrum
DevOps & API Tools: Git, GitHub, Bitbucket, Webpack, ESLint, Jenkins, CI/CD, Jira, Docker, Postman, Splunk
AI-Assisted Development: Claude (Anthropic), GitHub Copilot, Amazon Q

EXPERIENCE

ADP | *Vancouver, Canada (Remote)*

July 2025 – June 2026

Full-Stack Developer

- Built complex tax and compliance management UIs using React, Redux, and TypeScript for large-scale enterprise clients — including multi-entity account setup, tax jurisdiction configuration, and remittance workflows with province-specific validations and business rules.
- Implemented Workers' Compensation employer classification across multiple Canadian jurisdictions — including class codes, premium rates, and jurisdiction-specific automated processing.
- Adapted enterprise reporting templates (BIRT) for new Canadian markets by adding Canada-specific fields, rule-based UI modifications, and report generation logic.
- Leveraged AI-assisted development tools (Amazon Q, Claude, GitHub Copilot) across all initiatives to accelerate delivery by ~65%.
- Won 'Most Impactful Product Feature' award for building an end-to-end GenAI pipeline (Amazon Q, MCP servers) that compressed a recurring multi-week delivery process to under 2 hours — eliminating developer handoff entirely.

ADP | *Pune, India (Hybrid)*

March 2022 – August 2024

Senior Frontend Engineer

- Programmed a Benefits module chatbot leveraging LLM to deliver personalized responses to HR inquiries, reducing support workload by 30%.
- Integrated Gen AI models into the Plan Setup page, reducing plan submission time by 70% via real-time suggestions during plan creation.
- Revamped Person Setup for Time UI from Figma mockups using React, Redux, and Tailwind CSS, achieving a 20% reduction in errors and processing time.
- Overhauled the Launchpad application UI by implementing a custom WCAG-accessible design system in React, Redux, and TypeScript, driving performance optimization that improved load speeds by 25%.
- Initiated automated daily regression testing and unit testing using Java and Selenium, integrating with CI/CD pipelines to reduce testing time by 30% and improve code quality through early defect detection.

ADP | *Parsippany, New Jersey (Hybrid)*

July 2020 – February 2022

Frontend Engineer

- Architected a data extraction and auto-population solution for Benefits documents with custom insights and a PDF viewer for highlighting source data, reducing plan creation time by 40% for implementation consultants.
- Mentored a 3-person team using React, Redux, and TypeScript to digitize Plan Summary pages, cutting summary creation time by 80%.
- Engineered a React and Redux PDF annotation tool for 20 consultants, streamlining data extraction from 1,600+ insurance documents and improving ML model training accuracy to 93%.

ADP | *Parsippany, New Jersey (Hybrid)*

January 2020 – June 2020

Frontend Engineer

- Created accessible, responsive React components with cross-browser compatibility for Benefits pages, enabling implementation consultants to craft insurance plans for smaller businesses.
- Gained full SDLC exposure — from requirements and design through development, testing, and maintenance — within an Agile framework.

EDUCATION

University of Florida

Master's Degree in Computer Engineering

University of Mumbai

Bachelor's Degree in Electronics Engineering

PROJECTS

Promptopia | *TypeScript, React, Redux, Next.js, Tailwind CSS*

Built a server-side Next.js app enabling users to explore and share AI prompts within a global community.

AWARDS & CERTIFICATIONS

Most Impactful Product Feature

ADP | 2026

Innovation and Impact Program

ADP | Oct 2022

Academic Achievement Award

University of Florida | 2016
